

# REV5 / GROOVE-FIT WRIST STRIPS

A4: print 100% / Actual size. Disable Fit, Shrink and borderless expansion.

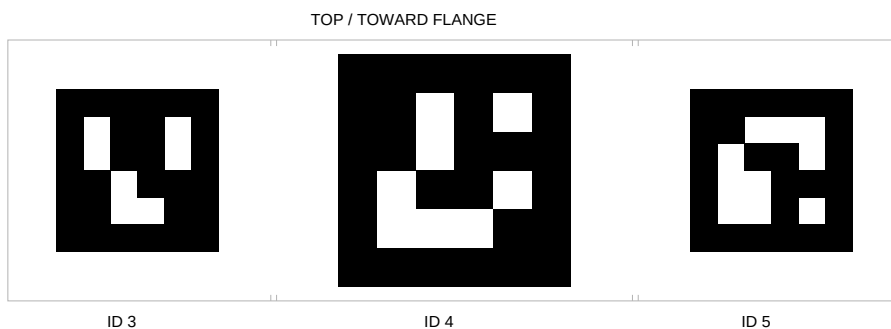

Each strip: 118.13 x 34.50 mm. Keep the black codes at their original size.

DICT\_4X4\_50 | side codes 21.50 mm | middle code 30.75 mm | one strip per shell half

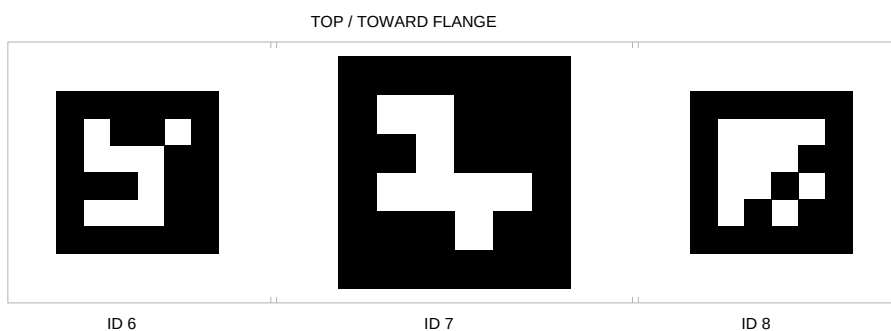

## L WRIST / HALF B - IDs 0, 1, 2

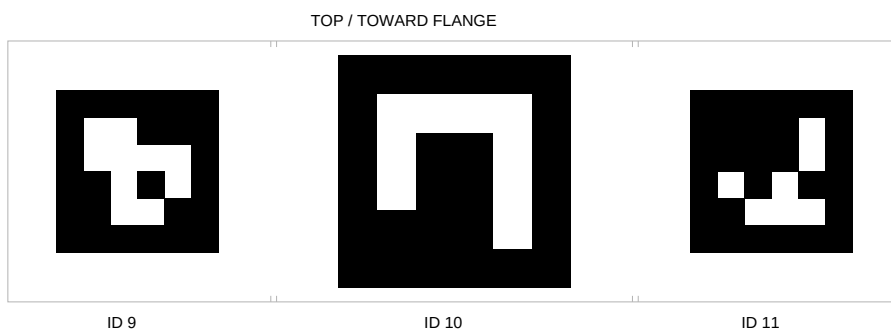

## L WRIST / HALF A - IDs 3, 4, 5

## R WRIST / HALF B - IDs 6, 7, 8

## R WRIST / HALF A - IDs 9, 10, 11

Cut only the outside rectangle. Start with the large code on the center flat.

Place BETWEEN the two groove mouths; leave 0.25 mm above and below the paper.

Keep TOP toward the flange/elbow. Leave 0.5 mm at each mating seam.

Do not let rubber bands cover the paper. Keep the full white margin; do not trim to the code.

Code sizes/IDs are unchanged. Sticker center is 0.75 mm higher: recalibrate after sticking.

— This line must measure exactly 50 mm.
